THE OHIO ELECTION.

The election in Ohio, yesterday, was the most severely contested and singular, as regards the irregularity in voting, that has been known in any State these many years. No ordinary basis of estimate is of any account this year, as there has been an independence in voting that sets all rules of computation at defiance. Republican districts have gone Democratic, and Democratic districts have gone Republican. CARY proved more of a dead weight to the Democratic ticket than was expected, although very many cut him who voted for ALLEN. In districts where iron-mills, and discontented workingmen abounded, the Democrats gained, though not so largely as we expected. On the contrary, in the farming districts, the Republicans gained heavily. In the Western Reserve, we did not do as well as we expected;—yet in Hamilton county, there was a complete turn-over. It is very evident that we have the Legislature, a decided change, and we estimate HAYES' majority at from 5,000 to 10,000. Such is the summary of results the latest figures give.

This turn over in Ohio is an event of far greater importance than will, at first sight, be comprehended. Had ALLEN been elected by a small majority, it would not have been either wonderful or significant. It would have represented the fact, merely, that the Democracy held their own. In their struggle to retain what they had, they employed every resource and energy at their command. Popular prejudice was pandered to, and the fears of the timid were excited. Money was spent unstintedly, and meetings were held in rapid succession, the best Democratic speakers being obtained, regardless of expense. It was a desperate battle, made in the full consciousness of its importance, and with a perfect realization of what defeat meant. Never did desperate pirates fight more determinedly for their lives than did ALLEN and his crew for the retention of power. But they have lost.

On the other hand, the Republicans were determined to bravely and earnestly meet the issue, and fight the battle to the end. As against wild inflation, they presented the effort to ultimately reach the honest redemption of currency in specie. As against a Catholic alliance, the Republicans favored free schools. As against dishonest bidding of votes, they presented an honest showing of principles,—and the result shows that honesty is the best policy, in politics as well as business. It is, indeed, the old story,—the Democracy cutting away from honest principles, in the hope of power, and the Republicans, adhering to their sentiments, even though defeat at one time threatened. The result justified them, and, at the same time, rewarded their adherence to the right.

The moral effect of this victory on the issue in this State cannot be over-estimated. It will inspire to vigorous effort; and as the element of confidence is already with the Republicans, it will be our fault if we do not elect HARTRANFT and HAWLS by an overwhelming majority. It is now time to thoroughly rouse ourselves for the conflict here. The Democracy are not hopeful or inspired,—but we want a victory, the moral effect of which will reach over into the Presidential year and give the inspiration of victory to us then. We call upon the State Central Committee to thoroughly rouse itself to its work; and with the coming of November, the death knell will be sounded over the new-born inflation hopes of the Democratic party.

IOWA.

The Badger State, too, comes up with a grand Republican majority. The latest returns put it down at 30,000 for the State ticket, and the Legislative ticket sweeping the field. The Legislature, by this result, is made Republican by a majority of forty on joint ballot. Comparisons, we fear, will be extremely odious to Democratic sensibilities, but in this instance they are very suggestive and instructive. The vote shows an average Republican gain of fifteen per cent. over that of last year. There were large Republican gains everywhere in the State, and a more decisive rejection of Democracy could not have been put on record. Well done, Iowa.

AND—NEBRASKA.

Nebraska does not desire to be behind-hand, and her Republican voters join in the victors' anthem. They met the enemy out there and completely routed them. The State goes Republican by a handsome majority, and the Republican legions move forward with flying colors, while there is wailing and gnashing of teeth in the camp of the enemy. Good enough for Nebraska!

NEW JERSEY, TOO!

Well, well! and must poor Democracy suffer a defeat even amid the sand hills, where its cohorts were supposed to be massed in force? The figures say it is too true. Yesterday, at the Charter election, held in the city of Newark, the Republican candidate for Mayor went through on a tidal wave of over 3,300 majority. This is a modest little gain, since the last election, of 3,500 for the victors, and that in a comparatively small town. Is it any wonder that the *Post's* chanticleer feels so very much debilitated?

AN old hen and a brood of full grown chickens (all roosters) will be sold cheap. Good reasons given for wanting to sell. Apply at the office of the *Post*, between the hours of 2 and 4 P. M.

DR. HARRIS' Summer Cordial was in demand at the Democratic headquarters about two o'clock this morning.

THE Signal Service reports it very "blowy" yesterday in Ohio.

LAY DOWN, WILLIAM ALLEN.

FROM WASHINGTON.

WASHINGTON, October 12, 1875.

The Mississippi Troubles.

The Attorney General is in daily receipt of advices from Mississippi. Governor Ames is averse to arming the citizens of the State for their own protection, for the reason that it would produce great excitement. Everything is reported quiet.

The Distilleries Increasing.

An official statement of the number of grain and molasses distilleries in operation on the 1st inst. and their daily capacities, shows the number of distilleries to be 174, with a total daily spirits producing capacity of 189,883 gallons, an increase over September of forty distilleries and 18,474 gallons daily.

THE LIQUOR QUESTION.

The Michigan Law Taxing Liquor Dealers Decided to be Constitutional.

DETROIT, October 12.—The State law taxing liquor dealers was to-day decided by the Supreme court to be constitutional. The main points argued before the court were, first, whether the present liquor law taxing the business was not practically a license, and thus in contravention of the existing clause in the Constitution which prohibits the Legislature from passing any law licensing the sale of intoxicating liquors; second, whether the tax, being levied by authority of the State could be conscientiously enforced, since it was applied to the support of the local municipal governments, or if this were not so, whether the laying of such a tax was not in violation of the local right to self government passed by municipalities.

Five O'Clock A. M.

OHIO REDEEMED!

All Hail, Governor Hayes!

A SWEEPING REPUBLICAN VICTORY!

The Entire Republican State Ticket Elected!

ALLEN AND HIS INFLATION BUBBLE "BUSTED"!

The Legislature Republican by a Handsome Majority!

AS OHIO GOES SO GOES PENNSYLVANIA!

'Up Boys, and at Them" for a Glorious Triumph in November.

CINCINNATI, October 12.—The election passed off quietly. The Republicans claim the county for Hayes and the entire county ticket. It is certain that the Republicans have made large gains. The result in the city will not be known until late.

COLUMBUS, October 12.—The election passed off unusually quiet, no serious trouble having occurred in any ward. The challenging committees were very vigilant, and a large and honest vote was polled at every voting place. An increased vote was polled by both sides. The indications are that the Republicans have largely increased their vote.

8:45 P. M.—The returns from forty-five precincts, mainly from the northern part of the State, show a Republican gain of about 600 over 1873.

Adams county, eleven townships, Democratic gain of 21; Allen county, four precincts, including Lima City, Democratic gain 51; Ashtabula county, three precincts, Republican gain 20; Clarke county, Springfield, First ward, Democratic gain 169; Cuyahoga county, one township, Republican gain 61; Darke, one precinct, Democratic gain 14; Fairfield county, two townships and two wards of Lancaster, Democratic gain 24; Fayette county, one township, Democratic gain 4; Franklin county, one township and two wards in Columbus, Republican gain 259; Fulton county, one township, Republican gain 10; Gallia county, First ward of Gallipolis, Democratic gain 38; Greene county, one township, Democratic gain 41; Hardin county, two townships, Republican gain 82; Huron county, two townships, Republican gain 65; Jefferson county, three townships and three wards of Steubenville, Democratic gain 56; Logan county, two townships, Republican gain 47; Loraine county, five townships, Republican gain 89; Lucas county, one township, Democratic gain 21; Madison county, two townships, Republican gain 23; Mahoning county, Youngstown, 3 wards, Democratic gain 256; Ottowa county, one township, Democratic gain 10; Pickaway county, two townships and two wards in Circleville, Democratic gain 39; Portage, two townships, Republican gain 66; Ross county, two townships, Republican gain 2; Sandusky county, two townships, Republican gain 31; Shelby county, one township, Democratic gain 9; Wayne county, three townships and three wards, Democratic gain 101.

COLUMBUS, O., October 12.—Adams county, two townships, Hayes 281, Allen 213, Democratic gain 9; Allen county, three townships and Lima City entire, Hayes 504, Allen 1,010, Democratic gain 150; Ashtabula county, eight townships, Hayes 1,902, Allen 561, Republican gain 628; Butler county, one township, Hayes 56, Allen 162, Republican gain 5; Carroll county, one township, Hayes 93, Allen 56, Democratic gain 12; Champaign county, one township, Hayes 161, Allen 29, Republican gain 20; Clark county, two townships and four wards in Springfield city, Hayes 2,286, Allen, 1,674, Democratic gain 155; Clinton county, one township, Hayes 117, Allen 94, Republican gain 82; Coshocton county, one township, Hayes 93, Allen 107, Republican gain 86; Cuyahoga county, one township and five wards in Cleveland, Republican gain 1,500; Darke county, three townships, Hayes 273, Allen 399, Democratic gain 29; Delaware county, one township, Hayes 52, Allen 37, Republican gain 6; Erie county, one township, Hayes 139, Allen 139, Democratic gain 19; Fairfield county, four townships and Lancaster city, Republican gain 61; Fayette county, two townships, Hayes 180, Allen 180, Democratic gain 17; Franklin county, three townships and three wards in Columbus, Hayes 1,888, Allen 1,124, Republican gain 610; Fulton county, one township, Hayes 133, Allen 146, Republican gain 10; Gallia county, First ward of Gallipolis, Hayes 88, Allen 144, Democratic gain 38; Geauga county, two townships, Hayes 356, Allen 114, Republican gain 98; Greene county, one township, Hayes 92, Allen 144, Democratic gain 45.

COLUMBUS, October 12.—Hancock, one township, Hayes 131, Allen 85, Republican gain 12; Hardin county, three townships, Hayes 252, Allen 405, Republican gain 103; Henry county, one township, Hayes 95, Allen 128, Democratic gain 8; Hocking county, one township, Hayes 72, Allen 183, no change; Huron county, five townships, Hayes 947, Allen 392, Republican gain 76; Jefferson county, three townships and four wards in Steubenville, Hayes 1,015, Allen 829, Democratic gain 228; Knox county, two townships, Hayes 185, Allen 185, Republican gain 9; Lake county, three townships, Hayes 1,125, Allen 541, Republican gain 18; Lawrence county, one township, Hays 110, Allen 103, Democratic gain 19; Licking county, five townships, Hayes 565, Allen 633, Republican gain 65; Logan county, three townships, Hays 471, Allen 278, Republican gain 81; Lorain county, seven townships, Hayes 1,153, Allen 649; Republican gain 123; Lucas county, townships, Hayes 156, Allen 153, Republican gain 48; Madison county, Hayes 404, Allen 496, Republican gain 34; Mahoning county, Youngstown city complete, Hayes 1,066, Allen 1,281, Democratic gain 311; Marion county, three townships, Hayes 228, Allen 276, Democratic gain 3; Medina county, Republican gain in seven townships, 153; Meigs county, Pomeroy city, one ward, Hayes 89, Allen 135, Democratic gain 154; Miami county, two townships, Hayes 161, Allen 407, Democratic gain 48; Muskingum county, two townships, Hayes 290, Allen 271, Democratic gain 87; Noble county, one township, Hayes 106, Allen 97, Republican gain 9; Ottawa county, three townships, Hayes 138, Allen 556, Democratic gain 79; Paudling county, one township, Hayes 102, Allen 119, Democratic gain 5; Pickaway county, four townships and two wards in Circleville, Hayes 627, Allen 894, Democratic gain 39; Portage county, ten townships, Hayes 1,775, Allen 1,367, Republican gain 205; Richland county, two townships and one ward of Mansfield, Hayes 710, Allen 667, Republican gain 24; Ross county, two townships and one ward of Chillicothe, Hayes 304, Allen 488, Republican gain 68; Sandusky county, two townships, Hayes 179, Allen 322, Republican gain 31; Shelby county, one township, Hayes 98, Allen 139, Democratic gain 11; Starke county, four townships and four wards of Massillon, Hayes 1,384, Allen 1,346, Democratic gain 85; Summit county, five townships and five wards of Akron, Hayes 2,303, Allen 1,639, Republican gain 172; Trumbull county, eight townships and wards, Hayes 3,460, Allen 1,227, Republican gain 206; Tuscarawas county, two townships, Hayes 223, Allen 253, Republican gain 22; Union county, one township, Hayes 192, Allen 93, Democratic gain 90; Warren county, two townships, Hayes 704, Allen 534, Democratic gain 53; Washington county, eight townships, Hayes 1,042, Allen 964, Democratic gain 88; Wayne county, eight townships, Hayes 1,135, Allen 1,271, Democratic gain 129; Wyandotte county, one township, Hayes 51, Allen 65, Republican gain 2.

CINCINNATI, October 12.—Official returns from eighteen wards and precincts in Hamilton county give Hayes 4,834 and Allen 4,345. The whole Republican county ticket is probably elected.

VERY LATEST.

COLUMBUS, October 12.—(midnight.) The Democratic State Central Committee rooms are nearly deserted. The Committee do not yet give up the State, but say Hayes' majority will not exceed 5,000 at all events. About 2,000 people are at the Republican headquarters. The Republican State Committee claim Hayes' election by 10,000 majority.

COLUMBUS, O., October 12.—Returns completed from 476 townships, precincts and wards, comprising about one-fourth of the State, give Hayes a net gain of seven thousand. The Republicans claim both branches of the Legislature.

IOWA.

The Badger State Keeps Step to Republican Music.

Large Gains in All Parts of the State.

Kirkwood's Majority About 35,000.

The Legislative Ticket Sweeps the Field.

A Republican Majority of Forty on Joint Ballot.

DES MOINES, IA., October 12.—No constitutional amendments were submitted in this State this year. The opinion that has obtained to the contrary is erroneous. Further returns from Polk county indicate that Lowery, the Democratic nominee for Treasurer, is most probably elected. The result on Sheriff is very doubtful. Both the Republican candidates for the Legislature are undoubtedly elected. Returns received at the office of the *State Reigster* up to this hour (11 P. M.) indicates a Republican gain of about fifteen per cent. over the majority of that party in 1874, when it was 28,743, and of twenty per cent. over the Republican majority for Governor in 1873. There are very large Republican gains in some counties, and Democratic gains in one or two. The best informed Republicans estimate the majority for Kirkwood, the Republican candidate for Governor, at 35,000. The returns thus far sent in would make it larger than that but they are mostly estimated on counties from the returns of a few townships in each county. There is every indication of a much larger Republican gain on the Legislature than on the State ticket, while a gain of ten or twelve Republican members is already heard from. Ten only reported Democratic gains are two members in Des Moines county. Unless the specials to the *State Register* are greatly out of the way, the Republicans will have at least forty majority in the Legislature on joint ballot. These are Republican estimates. The Democrats concede the Legislature and the State by 25,000.

COUNCIL BLUFFS, October 12.—Fremont county gives 250 majority for the Democratic State ticket. Brooks, Republican, is elected to the Legislature. Pottawatamie county gives a Republican majority of from 100 to 200. Wright and White, Republicans, are elected to the State Legislature.

NEVADA, IA., October 12.—Story county gives Kirkwood 800 majority. The county will go Republican by a good majority.

CLINTON, IA., October 12.—A very heavy vote has been polled, and the Republicans have been victorious. Kirkwood's majority will be about 100. The indications are that the whole Republican county ticket is elected by majorities ranging from 150 to 300. There are large Republican gains here.

GRINNELL, Iowa, October 12.—The Republican majority in the township is 381; total vote 381.

DES MOINES, October 12.—The returns are meagre. The indications are that this township goes about 800 Republican majority, and that the Republicans have elected the county ticket.

NEW JEFFERSON, Ia., October 12.—This county will probably give a Republican majority of 450.

SHELBY, Iowa, October 12.—The Republican candidates have small majorities in this township.

IOWA CITY, IA., October 12.—Johnson county gives a majority of 150 against Kirkwood, and probably a small majority for all the Democratic candidates.

SIOUX CITY, IOWA, October 12.—Incomplete returns indicate a Republican majority of from 200 to 300 on the State ticket, and a still larger majority on the county ticket.

BURLINGTON, IOWA, October 12.—The Third precinct of this city gives Lefler 94 majority. The other precincts are supposed to be in proportion.

OSCEOLA, IOWA, October 12.—The Republican majority in Clark county is estimated at 200.

DENISON, IOWA, October 12.—The indications are that Crawford county gives a fair Republican majority.

WINTERSET, IOWA, October 12.—The estimated majority for Kirkwood is 900.

TIPTON, IA., October 12.—The Democrats gained in this township over last year 100 votes.

MARSHALLTOWN, IA., October 12.—The returns at 11.30 indicate that the county gives 1709 Republican majority.

FT. MADISON, IA., October 12.—This county will give the Democratic ticket a small majority—not over 200.

INDIANOLA, IOWA, October 12.—The estimated majority in the county for Kirkwood is 800. The Republican Senator is doubtless elected. The representation is close.

DAVENPORT, IOWA, October 12.—The vote is light. The city gives about 400 Democratic majority. There is nothing definite from the county.

MEDIAPOLIS, IA., October 12.—The Republican State ticket is elected almost unanimously.

CORNING, Ia., October 12.—Kirkwood's majority in the county is 350.

WASHINGTON, IA., October 12.—This township gives 221 Republican majority on the State ticket.

OTTUMWA, Ia., October 12.—There was a close and exciting election and a very large vote. The polls closed at 6 o'clock, though about 100 votes were uncast. The indications are that the Republicans have a small majority.

MT. PLEASANT, IA., October 12.—A decided majority in all townships is heard from.

WEST UNION, IA., October 12.—Kirkwood's majority is 140.

VERY LATEST RETURNS.

CHICAGO, October 13.—Returns from Iowa up to this hour show Republican victories in nearly every county, and in most cases very considerable Republican gains. A large voted has been polled, and the local tickets are badly scratched in most places. Governor Kirkwood is elected by a large majority, and the Legislature will have an increased number of Republican members.

DES MOINES, IA., October 13.—Specials received by the *State Register* up to this hour indicate a Republican majority of 30,000 at least, and a steady Republican gain in the Legislature. A special dispatch sent at midnight shows that the Republicans gain of Representatives: in Clark county one, in Freemont two, in Mahaska one, in Poweshiek one, and in Berlin one.

The headquarters of the Republican State Committee, not being located at a point accessible to many telegraphic wires (Oskaloosa), the usual returns received through that channel are much delayed,

NEBRASKA.

Another Verdict Against Effete Democracy!

The State Carried for the Republican Party by About 10,000.

OMAHA, NEB., October 12.—To-day's election in the city passed off quietly. Much hard work has been done on both sides, but a determination wide-spread among voters to have the best men without regard to party has led to much scratching of tickets.

OMAHA, NEB., October 12.—In Hall county the entire State ticket is Republican by an overwhelming majority. In Cass county the State ticket goes Republican by a good majority. The county ticket is divided. The Sheriff and Clerk, Democrats, ran ahead of the ticket. In Clay county the Republican State, county and judicial tickets are elected by 88 majority.

OMAHA, NEB., October 12.—In Kearny county the Republican State, Judicial and county tickets are elected by a handsome majority. In Douglass the vote is so near counted that it is safe to say the Republican State and judicial tickets are carried by a handsome majority; also the County Clerk and Treasurer. There is a close vote on Sheriff, with the prospect of the election of the Democratic candidate. Filmore, Adams and Nemaha give handsome Republican majorities. Platte is estimated to give a Democratic victory. In Lincoln it is undecided. The county will be evenly divided. The Republican State ticket is elected. Dodge is heavily Democratic. It is generally conceded that the new Constitution has been carried by a large majority, and that the capital location question has been decided as an open question.

LATEST RETURNS.

OMAHA, October 12.—Lancaster polls the heaviest vote ever polled. The Republican ticket has a large majority. Lincoln city gives 300 Republican majority. Saline gives a handsome Republican majority. Otoe is very close. It has always been Democratic, but there is no doubt of a large Republican gain. Cummins is very close. In Valentine the District Judge, Republican, has a majority of 250.

The returns thus far received from the State show that it has gone Republican by a majority of 9,000 or 10,000. A heavy vote has been polled. There was much scratching, and some Independent tickets were carried in the local and county election. Col. Jas. W. Savage, Democrat, of this city, is probably elected District Judge.

NEW JERSEY.

A Decisive Triumph in Newark City.

The Republican Mayor Elected by 3,390 Majority.

A Republican Gain of Over 3,500.

NEWARK, October 12.—The city election resulted in immense Republican majorities. Henry J. Yates was elected Mayor by 3,390 majority over Andrew Smalley, Democrat. The Republican gain over the last Mayor's election in 1873 is over 3,500.

LATEST FOREIGN ADVICES.

GREAT BRITAIN.

The Polar Expedition.

LONDON, October 12.—Letters have been received from Captain Allen Young and one of the officers of the Pandora, dated Disco, August 6, and Waggart Straits, August 9. The letters describe the voyage as a pleasant one. The Pandora called at Disco. There had been some collisions with icebergs, but the vessel was not injured. The officer's letter describes the crew as working well. All on board fare alike. At Ivigutut Bay they saw the Fox.

SERIOUS ACCIDENT.

An Unfinished Centennial Building in Philadelphia Blown Down—Eight Laborers Injured.

PHILADELPHIA, October 12.—About noon to-day a high wind blew down the unfinished Agricultural Hall in the Centennial grounds. The building was about one-third completed, and entirely of wood. Eight laborers were injured, five seriously and one fatally. The building was under contract to be finished on January 1st.

ANOTHER SHOOTING.

A Sort of Mysterious Affair in the Seventeenth Ward.

Jerry Collins, a puddler, was found by the police about eight o'clock last night around the corner of Thirty-first and Railroad streets, in the Seventeenth ward, with a bullet hole in his abdominal region. He was taken to his boarding house on Thirty-second street, where his wound was dressed by a physician, who pronounced it not dangerous. The only account Collins could give of how he got injured was that a short, heavy set man with his face nearly concealed in the depths of an overcoat collar, came up to him while he was standing on the corner, placed a revolver at his bowels, shot him and then walked off. The police are on the watch for the assailant but have not yet arrested him.

EDUCATIONAL AFFAIRS.

Yesterday's Session of the Central Board—Financial and Statistical Statements—The High and Mute Schools—A New Sub-district—Absentees.

A regular meeting of the Central Board of Education was held yesterday afternoon at their rooms on Fourth avenue. The members present were Messrs. Arthurs, Aughenbaugh, Brush, Spratt, Case, Craig, Estep, Finnerty, French, Gutman, Harper, Kehew, Lewis, McEwen, McKee, McKelvy, Pitcairn, Rankin, Schultz, Shaw, Strain, Teese, Vaughan and President Nobbs. It was considerably after the hour for meeting before a quorum was obtained, and this fact led Mr. Pitcairn to remark that there is in the school laws a provision for expelling members who absent themselves from two successive meetings of the Board except on account of sickness or from some other unavoidable cause. On his motion the Secretary was directed to prepare a list of the members who have been absent for three consecutive meetings during the present year.

A change in the schedule of studies in the ward schools, made necessary by the addition of one year to the course, was presented by City Superintendent Luckey and referred to a special committee of five with instructions to report at the next meeting. Mr. Luckey also reported that the schools were open nineteen days during September. The average attendance of pupils at the day schools was as follows: Males, 7,196 and females 7,354. Evening schools,—males 1,946 and females 343. Total 16,839. This is an increase of 936 over September, 1874.

THE HIGH SCHOOL.

Dr. B. C. Jillson, Principal of the High school, reported that 246 male and 264 female scholars were enrolled during September, making a total of 510. The average attendance of males was 225, and of females 251. Total 476. The number enrolled up to yesterday was 515. Candidates for admission holding Nos. 375 and 377, for the Academical department, and Nos. 378, 380 and 381 for the Commercial department were recommended for admission. A donation to the Library from Stephen Quinon, of the *Christian Advocate*, of the "Annual Record of Science and Industry" for the years 1872, 1873 and 1874 was also acknowledged. The report was received and filed, the recommendation of Professor Jillson adopted and a vote of thanks tendered Mr. Quinon.

The following statement of the finances of the Board was submitted by Mr. Rankin.

Bal. on hand Sept. 4	$206,357 22
Receipts since then	953 28
Total	$207,310 50
Expenditures	25,817 69
Bal. on hand Oct. 1st	$181,432 81
Interest due to date	1,341 74

The report was received and a number of bills, amounting to $160.59, were ordered to be paid.

Secretary Kehew reported that since the last meeting warrants had been drawn, amounting to $26,702.68. The payment of bills from the High School Committee, footing up $1,347.58, was also directed.

From the Committee on Teachers and Salaries, Mr. Pitcairn reported that they had granted one additional teacher to the Ralston, Thad. Stevens, Lawrence, Howard, Riverside and Minersville sub-districts, two to the Mt. Washington, Liberty and Oakland, and three to the Washington sub-districts. Report accepted and grants confirmed.

THE MUTE SCHOOL.

Dr. Shaw, from the Committee on Mute School, submitted the following:

"Your committee would respectfully report that the mute school has been in successful operation for the past month under the teaching of Prof. James H. Logan. We take this occasion to state that we were induced to make the change in teachers from the unsatisfactory manner in which the teaching was done heretofore, and from the fact that the further progress of the pupils under the teachers then employed was impossible, and that a change would have to be made or the school abandoned. Believing the mute children of our city to be as much entitled to an education out of the public moneys as those who can hear and speak, and since the Board has appropriated $1,500 for two teachers, your committee considers it to be their duty to continue the school and endeavor to make it successful by employing the best talent they could get for the money appropriated. Hearing that Mr. J. H. Logan, of Jacksonville, Illinois, a gentleman of education and refinement, (a graduate of the National Deaf Mute School of Washington City) and of experience as a teacher of mute children, could be obtained, he was, at a meeting of the committee in August last, elected to that responsible position, and the action of the committee was unanimously confirmed at a special meeting of the Board. Your committee, since elected Miss Kate Kelly to the position of assistant teacher at a salary of $300 per annum, of which action we ask your approval. We would take this opportunity to ask the parents and guardians of mute children to take advantage of this school, now placed under a competent teacher, and, by sending their children to it, contribute to its success and obtain for them a thorough education."

The report was received and the election of Miss Kelly approved.

EULOGISTIC.

Mr. Aughenbaugh, from the High School Visiting Committee, made a lengthy report warmly eulogizing the school, its mission, condition and teachers. It was ordered to be spread upon the minutes.

Additional teachers were requested for the Luckey, Humboldt, Washington, Forbes, Mt. Albion, Liberty, Moorhead, Howard and Oakland sub-districts. The applications were all referred to the Committee on Teachers and Salaries with power to act.

The following, presented by Mr. Finnerty, was also referred to the Committee on Teachers and Salaries, but withdrawn:

Resolved, That a sense of justice demands that an equal compensation be given to all Principals having charge of night schools, irrespective of the number of schools in any district.

A request from the Colfax district, that they be allowed to open a night school with ten scholars, instead of sixteen as required by the rules, was appropriately referred.

A NEW DISTRICT.

The special committee appointed to consider the matter of the division of the Collfax district, Twenty-second ward, so as to erect a new school district out of the second election precinct, reported affirmatively. The report was adopted, and the formation of the district was referred to the Committee on Legislation.

Messrs. Craig, Brush, Case and Estep, were appointed as the High School visiting Committee for the ensuing month.

The Board then adjourned.

BREVITIES.

Paragraphic Pencilings of Passing Events.

····John Hite, who was shot on the South Side, on Sunday evening, by Fred. Stolte, is yet in a very dangerous condition.

····Thomas Jackson has declined to act as referee in the Morris-Coulter race, and accordingly a new man will have to be selected.

····A special meeting of Select Council will be held this afternoon to consider the Penn avenue interest ordinance, which was vetoed by the Mayor.

····At Mercer, on Saturday evening last, James B. Carscadden was almost instantly killed by Solomon Amey, who struck him on the neck with his fist.

····City Solicitor Bigelow and Mr. John Dalzell, Attorney of the Pennsylvania Railroad Company, were conferring yesterday regarding the Penn avenue bridge troubles.

····Mr. Sweeny, of Noblestown, on the Panhandle Railroad, was in the city yesterday searching for his daughter, whom he suspects of being an inmate of a house of ill fame.

····A still in the oil refinery of C. T. Place, on Herr's Island, exploded about two o'clock yesterday morning. But little damage was done to the work. James White, the watchman, was so badly burned that his recovery is considered doubtful.

····The target practice of Company A, Duquesne Greys, postponed from October 1st, will take place Wednesday, October 13th, on the grounds of Col. Hampton B. Hays, Howard station, P. V. & C. R. R. leaves depot, Fourth avenue and Try street, at 11 o'clock A. M.

PERSONAL.

***Rev. H. Thane Miller is in the city, purposing to attend the meeting of the International Women's Christian Association.

***Theodore Tilton will tell the citizens of Pittsburgh what is "The Problem of Life," on December 18th. He will deliver the lecture at the Mercantile Library Hall.

***Mr. M. A. McGirr, the gentleman who recently entered the telegraph office at the Union Depot, is one of those whom it is a pleasure to know. Besides this he is a first-class "ticker."

***It was rumored that President Grant would arrive here last evening on his way to Washington, Pa. He had not reached the city at two o'clock this morning, but it is possible that he came in on the train that arrived about three o'clock.

***The great revivalist, Ira D. Sankey, passed through the city yesterday, on his way home, at New Castle. In response to some questions propounded to him, he said that it was not likely he and Mr. Moody would be in Pittsburgh very soon. Their engagements in Brooklyn, New York and Philadelphia are such as to keep them occupied for several months. After they get through there they may come to Pittsburgh and hold a series of meetings in the Exposition building.

GOLD closed in New York yesterday at 116.

WE would humor the *Post* so far as to expose the crude and foolish falsities of its rejoinder to our article on the Schurz letter, were it not that it is rabid on political issues, and at such times makes no pretence to fairness or honesty. When politics are at one side, the *Post* is occasionally sensible and fair; but in a political canvass, it resorts to the petty falsifications of the mere trickster. We do not, of course expect that it will discuss the currency question, because it knows nothing about it; but we would show it that even its petty criticisms are discordant, inconsistent, and contemptible.

THE discussions in Ohio, between WOODFORD and EWING, disclosed one very important fact. It came in the form of a telegram from Secretary BRISTOW, declaring that he had not drawn in fractional currency with a view to silver payments. It is stated, and we think reliably, that Secretary BRISTOW has abandoned, for the present, all efforts towards silver coinage, owing to the high price of silver. It shows that he realizes the difficulties before him, and wisely forbears pressing toward silver payments, when the premium is so high. It is a hint as to the difficulties in the way of reaching gold payments, while the supply is so low.

A NEW educational monthly, entitled *The Educational Voice*, was given issue yesterday. Professors BURT and COCHRAN are the editors, although they call themselves "associate editors," which, in newspaper parlance, means that they have a superior—an editor whose name is not given. In reality, the two Professors named are, we suppose, the editors. The *Voice* is a sixteen page paper, clearly printed, on large, legible type and good paper. It is issued under the authority of the Pittsburgh Teachers' Institute, and has in it far more of merit than such publications usually possess. It is not straightlaced and pedantic, and is capable, if well conducted, of doing much good. Its first issue has in it much of merit and promise.

THE Ohio election maintained, up to the closing of the ballot, the same close hold on the interest of the people, which it held during the progress of the canvass. The vote was very large, both parties being fully aroused, and using all the machinery to secure a full show of voting strength. The result will thus express, as exactly as may be, the exact views of the people as to the issues pending in that State, and, in a measure, over the entire country. There can be no excuse for not having voted intelligently in that State. The several questions were openly and fully discussed. Inflation and hard money, expansion and resumption were pitted against each other, in sharply defined discussions, which admitted of neither confusion nor doubt. So of the school question. In Ohio, it was a sharply defined issue, alluded to in both platforms, and brought to the forefront by the attitude of Archbishop PURCELL, and the GERHAN law. Thus the subjects at issue were clearly stated and sharply discussed. The vote of yesterday shows how the people regard those issues, so far as Ohio is concerned.

ATTORNEY GENERAL DAMMICK.

The death of SAMUEL E. DIMMICK, Attorney General of this State, was not a surprise to those who knew of the severe illness from which he was suffering, for several days past. The disease, pneumonia, was developed by exposure, and once it had gained full power, speedily terminated his existence. During his career as Attorney General, he has proved a careful, safe adviser, and gradually gained, by his decisions, the respect of the public, and confidence of the bar. He was of great service in sustaining, by his legal opinions, the course of the Governor, in vetoing special legislation, in the early part of his term of office. He has been known as a careful, conscientious adviser, seeking at all times, the well-being of the Commonwealth, and striving to rightly apply the law. The new Constitution, which required close and careful study and an accurate judgment on the part of the Attorney General, because of the absence of precedents and official interpretations, was applied to all cases which came up, so carefully and correctly, that we do not remember that any decision of his was seriously questioned. His health has been impaired for some time past, and he has been unable to give that close attention to the duties that he might otherwise have done. Still he was a faithful and valuable officer, whose loss will be keenly felt. Governor HARTRANFT has issued a proclamation, properly recognizing the sad event which has occurred, and will be one of the pall bearers at the funeral.

THE UNEMPLOYED.

Winter is drawing near, and there are many, in our large cities, who have been without employment for months past, and who look Winter in the face with fearful hearts and shrinking souls. The oppression of the times has brought the pinchings of hunger to many, who heretofore have been accustomed to the comforts, not to say luxuries of life. Every panic, and consequent depression of business, strikes a new class,—persons who in times of comparative prosperity have not heeded the wise injunction to lay by for a rainy day, but have lived liberally and well, only to find their resources cut off and sudden, helpless poverty thrust upon them. All such are deserving of earnest, kindly sympathy. They have suddenly lost their all, and are put aside from the chances of labor and income. At home, those who have hitherto received only kind care, and fond caresses, whose wants have been lavishly supplied, are made to feel suffering and want, while those who made cheer of toil, when its proceeds went to those so lovingly cherished look on in bitter, helpless sorrow. It is not sentimentalism we are indulging. We know that there are many families, accustomed to the comforts of life, who feel the chill of Winter in advance, because they know not what they will do during its dark and gloomy months. The hard hearted may say that there is public provision for all such. True; but it requires hard struggling, and the giving up of hope after hope, till the verge of despair is reached, before sensitive natures can reach the level of receiving public charity. The first crush of hard fortune should command sympathy, at the least.

From the statistics of labor, referred to yesterday, we gather that in 1874 there were fewer out of employ than was generally supposed. We do not think matters are worse now than then,—but better. Certainly, more of manufactories are running, and the demand for labor in the mechanical and agricultural departments has greatly increased. In the line of clerkships, and of the unskilled branches of employment, there is a vast increase of unemployed. There are many home illustrations of this. An advertisement for persons to fill given stations is sure to be answered by hundreds. There were, all told, some two thousand applications for positions in the Exposition, where but about fifty were to be employed. It is noticeable, however, that those thus unemployed belong, largely, to the unskilled class. There are persons who have not learned trades, or been trained in some department of skill, but are merely capable of filling positions where quickness and tact are all that is necessary to success. The first and most important lesson taught by the experience of the unemployed, is that of the importance of learning trades, in the time of childhood. As a rule, the possession of a trade affords a tolerable security that employment will be had in times of misfortune. At all events, it assures the best opportunity available, inasmuch as the regular lines of business are sure to be prosecuted, when other and less material employments have entirely ceased. Those who have no trades, and depend on the uncertain clerkships that may be had, are the first to feel the oppression of adverse times. With the falling off in business, retrenchment comes, and this is quite certain to strike the clerks, and thus they are suddenly without employ. The remedy is professions or trades; and even where professions are determined on, trades should be learned as a basis.

We may learn much, in adverse times from the examples of the French. That volatile people have a happy faculty in the way of cheerfully submitting to hard times and of using to advantage even the smallest favors and opportunities. Their adaptation to all forms of employment is remarkable. Whatever comes to hand,—be it agreeable or disagreeable, honorable or menial,—they accept with ready grace, and turn it to the best account. We fancy the *disposition* to do this exists among our people at the present, but the same adaptability to the varying forms of employment does not seem to exist here as there. Then they economise, as we have never learned to do. It has been frequently stated that a French family would live on what an American family would waste. This is doubtless true, in a measure. It may not be literally correct; but understood as involving the art to turn everything to the best account, they undoubtedly excel us.

It may seem almost cruel to offer advice to the unemployed, yet we will say, that the misfortunes of the present, if rightly availed of, are not without their benefits. If, in place of repining, they rouse themselves to energetic effort, there will be some good result follow in the way of finding something to do. There are so many things, small and great, to be done in a large city, that it is more a question of clear-sighted seeking than of uncertain asking, that leads to employment. But the promotion of self-reliance and energy, the development of latent vigor is the great advantage. We know of many reliable instances of persons stooping to rise. One, in this city, went on his wedding tour, supposedly wealthy, and returned to find himself ruined. He sought occupation, and was employed to clean mortar from bricks, at small daily pay. To-day he has a good income from independent business. Cases of this character might be multiplied

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, October 13, 1875.

The tendency of business is toward improvement, but we find that many are affected by the weather, and the supposed approach toward Winter. It is marvelous how much influence weather has on business affairs. The business barometer may follow weather changes, but it is faithful to these all the while. Once the present cold spell passes by and we are confident that a better state of feeling will promptly obtain.

At the banks transactions were confined mainly to city customers, as the demand for funds for the last two days from country correspondents has largely fallen off. As compared to the past few weeks, business was quiet. Customers were kindly received, and all legitimate favors were freely granted.

At Chicago, the *Tribune* says, the intense activity noticed for a month or two past continued during the week down to Thursday. The Chicago banks never had so many calls for money, and in so large amounts. Country balances were not only in most cases drawn down to the lowest figures, but large accommodations were granted by our Chicago banks to country correspondents. The wheat districts of Minnesota, Wisconsin, and Iowa; the cattle sections of Nebraska, Kansas, and Southwestern Missouri; the corn districts of our own and other States, especially where the late corn had been nipped by the early frost, and it was best to increase their stock hogs or condense the corn into pork—in fact, nearly all the surrounding States seemed to rely on Chicago for funds. In most cases they got them, for our bankers, like our commission men and merchants, are prepared to do the business of the North and West. Money, in consequence of this steady and immense drain, began to be rather close, when, on Friday, all at once business at the banks became quiet, and continued through Saturday. This was really grateful rest, which most officers and clerks duly appreciated. Of course there was a fair amount of transactions, but apparently without any apparent special reason they were comparatively light.

NEW YORK, October 12, 1875.

The money market was easy at 2½@3; prime mercantile paper 5½@7. The customs receipts were $399,000. The clearings were $26,000,000. The exports of produce were $4,877,000. Bankers' bills 479@482¾. Gold opened at 116¼ and closed at 116, the two extremes of the day. The rates paid for borrowing were 5-64, 1-16, 3-64, 1-32 and 1-64 per cent. per diem. At the close loans were made flat. Governments were steady. Railroad bonds were quiet. State bonds were dull.

The stock market was strong and higher in early dealings, the advance ranging from ½ to 1 per cent. After midday, however, there was a reaction, while Missouri Pacific dropped from 19 to 14½ and Union Pacific from 69 to 67. Northwestern fell from 36⅜ to 35½, preferred from 50⅞ to 49½. Lake Shore from 54¾ to 53½, Rock Island from 103½ to 102½, St. Paul from 33 to 32½, preferred from 62¾ to 62, Pacific Mail from 37 to 36½, Western Union from 75¼ to 74¼, Ohios from 16 to 15¼, Hannibal & St. Joe from 18 to 17½, preferred from 23 to 22. Michigan Central rose from 55¾ to 56¼.

At the second call the market was steadier and prices recovered ½ to ¾ per cent. Stocks were weak and lower during the last hour of business, the decline being assisted by a rumor circulated in the Exchange of a failure in the tea trade. Northwest declined to 35¼ for common and to 49¾ for preferred, St. Paul to 32 for common and to 61¼ for preferred, Lake Shore to 53¾, Union Pacific to 67, Pacific Mail to 36, Western Union to 74⅞, Rock Island to 103, Ohios to 15⅝, New Jersey Central to 103¼, and Michigan Central to 55¾. Missouri Pacific recovered from 14½ to 15.

The Atlantic & Pacific Railroad directors and the Missouri Pacific stockholders held a conference to-day in regard to the inability of the former to pay the October dividend guaranteed on the Missouri Pacific stock. The Atlantic & Pacific directors stated that they are willing to issue scrip for the dividend and abrogate the lease if the Missouri Pacific Company will pay the $1,490,000 advanced by the Atlantic & Pacific Company, and take back $1,800,000 of their bonds lodged for collateral.

The gross earnings of the Missouri Pacific Company for the years from July 1, 1873, to September 30, 1875, amounted to $11,454,141, and the operating expenses for the same time were $7,354,856, leaving the net earnings $4,099,275; disbursements in the same period on the funded debt, etc., $4,573,987, from which deduct net receipts $499,275, showing a net loss of $474,712. The dividends paid to stockholders of the Missouri Pacific for three years amount to $1,050,000. The funded debt footed up $16,241,000, and the decreased gross earnings for nine months of the present year, as compared with 1874, is $570,717.

The Evening Post says: As to trade in this city, we can only say that every firm from which we hear reports the sales this season are ahead of those of any season since 1873. On manufactured goods there have been losses to manufacturers, but profits have been made for all through whose hands goods have passed after leaving manufacturers. One of the largest dry goods houses reports that its sales during September were $1,390,000 ahead of the corresponding month in 1874. This is an exceptional case. The railroad tonnage was never larger on the trunk lines than now, which, while it does not prove that the railroads are making larger profits, for the rates are low, does show that the volume of trade is large.

The transactions on the Stock Exchange aggregated 164,000 shares, of which 29,000 were Pacific Mail, 19,000 Western Union, 23,000 Northwest common, 3,000 do preferred, 8,000 St. Paul common, 1,700 do preferred, 4,000 Erie, 35,000 Lake Shore, 4,400 Ohios, 8,000 Union Pacific, and 17,000 Missouri Pacific.

COMMERCIAL.

Condition of the Markets at Home and Abroad.

DAILY REPORT OF PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, October 12, 1875.

Trade in commercial circles continues moderately active, and while the demand for almost everything is light, confined almost entirely to supplying immediate wants, there is a very fair business in the aggregate.

APPLES—In good supply, but with an active demand prices are fully maintained, regular jobbing sales at $3@4 per bbl for fair to choice.

BEANS—Quoted, in a small way, at $2@2.10 per bu. for prime new mediums, and $2.15@2.25 for navies.

BUCKWHEAT FLOUR—4c per lb.

BUTTER—The market is well supplied, and dealers report the trade dull, although prices remain the same as last quoted, fancy do choice solid packed, 23@25; ditto roll, 27@30. Commission men report that a good deal of that arriving is in bad condition.

CHESTNUTS—Are coming forward more freely, and prices are lower; $7@7.50 per bu.

CHEESE—We can report a steady demand, and regular jobbing sales at 13@13 1-2 for prime Ohio Factory, and 13 1-2@14c for New York Goshen.

EGGS—The market is quiet, but with a light supply, prices are tending upward—sales reported to-day at 23@24c, with some dealers quoting at 25.

FEATHERS—In good and unchanged. Old Spring wheat, $7@7.25; new ditto, $6.50@7 the outside figure for Minnesotas: old winter wheat, $7.25@7.50 for red and $7.75@8 for amber and white; new red winter, $6.50@7, according to quality. Rye Flour, $5.50 to $5.75.

GROCERIES—There is a fair degree of activity in the grocery trade, but the leading markets are devoid of any new or important features to which reference has not already been made in these columns. Subjoined, as noted in our last report, are easier, and we have reduced our quotations on refined goods.

GRAIN—The market for Wheat, excepting strictly prime, is reported dull, and prices are weaker, new red taking the lead in the way from $1.25@1.35 for red, and $1.35@1.45 for white, according to quality and condition. Old red still quoted at $1.40@1.45, with but little offering. The Coarse Grains continue quiet and unchanged; mixed Penna. and Ohio, 42@43; do white, 44@45c. Corn continues dull, but with only a limited supply, and light receipts, prices are still maintained; shelled, 45@48 on track, and 42@45 for sales new car lots on spot and to arrive, at 50 cts., although we are cognizant of one dealer having paid 60 cts for two cars, a very few days since. Rye is quiet and nominal at 85@90c.

OATS—Receipts continues very dull, with the market considerably overstocked; prairie, $14@15; timothy, $18@20.

PROVISIONS—The market is fairly active and steady, and while prices have undergone no change for some days, the general feeling is strong, as it is believed that the supply of old will be well nigh exhausted before the new is ready to move.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, October 12, 1875.

The Crude market was weak and lower to-day; immediate shipments was quoted at $1,70; United certificates, $1,40@1,42 1-2; Conduit ditto, $1,47 1-2, a decline of from 2 1-2 to 5c, as compared with Monday. Refined unchanged; Philadelphia delivery, 13¾; Baltimore, 13⅝. It is said that some of the New York brokers and exporters who are short, are beginning to bear the market with all the power they can bring to bear, but the indications just now are that they will not be successful. It is said that Philadelphia is refusing to sell, and that but little is being shipped from that point eastward.

The Barrel market is weaker, but prices are without quotable change; countries, $1,40@1,50; city make, $1,60@1,65.

The following were the exports from the United States from January 1st to October 6th:

The Oil City Club Defeated by the Xanthas.

The Xanthas defeated the Oil City base ball club yesterday afternoon at Union Park by a score of 14 to 7. The Standards, of Wheeling, and the Xanthas play at Union Park this afternoon.

Connelly's Fire Extinguisher.

Among the practical machines on exhibition at the Exposition is the Fire Extinguisher, invented by Dr. Connelly. A fire has no chance with such an extinguisher as has been proven by several severe tests to which it was put in this city. In order that all visitors to the Exposition may have an opportunity to see it in practical working, it is proposed to have frequent experiments with it; if possible, one every day. The first of these will be given today, and the people can judge by ocular demonstration of its merits. The exhibition will be free to all. A fire will be built and after it has got under full headway it will be tackled by the extinguisher and squelched in a hurry. The extinguisher is very easily managed, and it is a sure preventative of a conflagration. Let the people judge for themselves this afternoon

INTERNATIONAL CONFERENCE.

The Women's Christian Association Meeting Yesterday.

The third International Conference of the Woman's Christian Association opened in the Second Presbyterian Church yesterday. The afternoon meeting was simply preparatory, the reception of credentials of delegates being the main business transacted. The evening was occupied with religious exercises and addresses by Mr. A. G. Byers, of Columbus, Ohio. The Conference will be continued to-day, and the programme includes some very interesting features.

A FATAL ACCIDENT.

A Man Killed at an Iron Forge.

About half-past nine o'clock yesterday morning a man named Gregg, who was working at the iron forge of Wm. Miller, corner of Duquesne Way and First street, met with an accident that terminated fatally in a very few minutes. He was working at a steam hammer, when, through some inadvertance, he pushed the iron too far under the hammer, and the tongs being struck, flew up and hit him in the breast with such force as to cause death in about five minutes. He was removed to his home, on the corner of Logan street and Our alley, and the Coroner notified. The inquest was held last evening, and a verdict rendered in accordance with the above facts. The deceased was about thirty-five years of age, and left a wife and four or five children.

RUN OVER.

A Pauper Probably Fatally Injured by the Cars.

Shortly after daylight yesterday morning some parties discovered a man lying in a mutilated condition at the eastern end of the Corks' run tunnel, on the Pan Handle Railroad. He was picked up and carried to the ticket office at Ingram, where it was found he was an inmate of the County Home. Both his feet were cut off and he had a terrible gash in his head. At the time he was found he was unconscious, and did not afterwards revive sufficiently to be able to give any account of the manner in which he was hurt, but it was presumed that he was run over by a train while walking or lying upon the railroad. He was of unsound mind and was addicted to wandering away from the Home. He was living last evening, but it was not expected that he would long survive.

FISCAL MATTERS.

Business Before the Allegheny Finance Committee.

The Finance Committee of Allegheny Councils held a meeting last evening, Mr. N. H. Voegtly presiding.

Mr. Callery moved that all the city officers be notified that their salaries will be withheld until the balances due in their accounts are paid up. Adopted.

The following collectors of delinquent taxes for 1875 were appointed: First ward, George W. Lyons; Second ward, Robert Dilworth; Third ward, John Ogden; Fourth ward, John Dalzell; Fifth ward, E. M. Johnston; Sixth ward, S. J. Crist; Seventh ward, Fred Hanny; Eighth ward, Gottlieb Fischer; Ninth ward, Michael Wood; Tenth ward, James Campbell; Eleventh ward, Cyrus Hutchinson.

Adjourned.

ATTORNEY GENERAL DIMMICK.

The Official Announcement of His Death by Gov. Hartranft.

Gov. Hartranft yesterday issued the following announcement of the death of Attorney General Dimmick:

EXECUTIVE CHAMBER, HARRISBURG, October 12, 1875.

To the People of the Commonwealth of Pennsylvania:

It is with profound sorrow that I make official announcement of the death of Hon. Samuel E Dimmick, Attorney General of this Commonwealth, which took place in this city last evening.

The high tone of his public life, the talents and the private virtues of this distinguished man, will be his enduring memorial to the hearts of the people of Pennsylvania. Out of respect to his eminent services the several departments of the Government will be draped in mourning for the period of thirty days, and closed on Friday, October 15th, when his funeral will take place.

[Signed,] J. F. HARTRANFT.

The remains of the deceased were conveyed to Honesdale yesterday. The pallbearers are Governor Hartranft, Auditor General Temple, John Linn, Deputy Secretary of the Commonwealth, and Major Hart, Cashier of the State Treasury. Mr. Dimmick was fifty-three years old.

A STATEMENT.

The Sale of Intoxicating Liquors at the Exposition Building.

In view of the many reports in circulation touching the sale of intoxicating liquors at the Exposition building, the Executive Committee have authorized the following statement:

The Committee let the under portion of the building, to be under-let by the parties renting from them. The Committee had decided from the outset that there should be no liquors sold, their lease from the city of Allegheny, and the contract with the members of the Committee, being against permitting the sale of intoxicating liquors. The lease to the principals required the under-leases to be in conformity with the rules and regulations of the Committee. This phase of the lease was broken by the principal lessees, and eight or ten persons were installed in the building, and had opened bars for the sale of liquor before the Committee knew of the fact. On learning it, orders were at once given to have those persons ordered out, but owing to parleys and promises, several days elapsed before this work was consummated. Yesterday, however, the parties were turned out by the police, under strict orders from the Committee. It may be further stated that the Committee consented to the fitting up of stands in the basement only under the idea that legitimate refreshments should be provided and sold. The difficulty may now be understood as entirely cured, and that liquor will not be found on the premises hereafter.

THOS. S. MITCHELL, Chairman.
J. VANNOTE, Secretary.

THE SINKING FUND.

Interest on Penn Avenue Bonds Already Paid—The Appropriations Upon Which the Warrants Were Drawn.

It is now generally understood, or at least it has been openly asserted and not denied, that when the interest on bonds issued under the Penn avenue act fell due on the 1st inst., it was paid, notwithstanding the fact that the ordinance providing for diverting of money applicable to the redemption of the South Side bonds to the partial payment of this interest has not yet become a law. That there was not sufficient money in the Interest Appropriation to meet this interest is proved by the fact that it was deemed necessary to introduce into Councils and have passed an ordinance legalizing the use of a part of the Sinking Fund for that purpose. If the interest has been paid, and a part of the Sinking Fund used in doing it, no warrants were drawn upon it. The only interest warrants signed by the Mayor at the close of September were drawn upon regular appropriations, and their No., amounts and date areas follows:

No. 7,341, September 30, 1875, Appropriation No. 1, (Interest) C. L. Magee, Treasurer. Interest and premium and tax on city loan. Amount $149,756.50.

No. 7,342, September 30, 1875, Appropriation No. 25, Water Extension Loan Interest. C. L. Magee, Treasurer. Amount, $130,457.

No. 7342, September 30, 1875. Appropriation No 36, C. L. Magee, Treasurer, Fire Department Loan Interest. Amount, $7,000.

It will be observed that none of the above warrants authorize the use of any part of the Sinking Fund or in any way refer to it. The money taken out of the Sinking Fund it is proposed to replace with bonds issued for Penn avenue interest, or the money accruing from the sale of them.

THE EXPOSITION.

Sights and Scenes at the Great Exhibition.

The Progress of Affairs Yesterday—The Attendance—New Attractions—Some Specialties Exhibited.

The weather has not been favorable for the great Exposition, but notwithstanding this fact, matters are moving along in a satisfactory way. Some of the exhibitors are still at work, giving the finishing touches to their stands, and adding fresh attractions. The spirit of enthusiasm seems to have been fully aroused, and every exhibitor seems determined to make the best showing possible. This accounts for the fact that many of them, since the opening day, have added new features to their stock, and they have been vieing with each other as to which shall make the prettiest showing.

MAKING THE ROUNDS.

The visitor who proposes to fully "take in" the Exposition must not expect to accomplish it in one visit. If it is taken in detail, half a dozen visits will not be too many, and each visit will reveal new attractions. There is so much to see that one gets almost wearied before the grand round is made, and an interval of rest is very desirable.

THE ATTENDANCE

was reported as being larger yesterday than at any time since the exhibition opened. The people have been holding back on account of an impression that everything was not complete, but they commenced to come in yesterday afternoon. There is enough to occupy the mind and feast the eyes, now, without any further attractions. The ticket returns show that there were over three thousand visitors present, exclusive of exhibitors and their employees.

POWER HALL

is being rapidly put into good order for exhibition. A good deal of machinery has been placed in position, and will soon have power to run it. The boilers have been tested by the County Boiler Inspector and found in satisfactory condition. One of the engines was started up yesterday morning and run for a short time. For a very long time will elapse before the department will be complete, which will make an additional feature of no little interest.

WARMING UP.

The atmosphere being somewhat chilly, the management has made arrangements to heat the building by hot air from the engine in Power Hall. The men are at work on this, and are putting up the necessary fixings. When this is completed, no matter what kind of weather Old Prob may deal out to us, the interior of the Exposition will be as cosy and comfortable as it is now dazzlingly brilliant. In a comfortably heated and well ventilated room, with myriads of attractions to examine, with music to lend its enchantment to the scene, and broad avenues all the way round the building for promenading, the Exposition is bound to be a popular place to while away the hours.

MUSIC.

The Great Western Band furnishes the music day and evening, and the programmes are made up with care. For instance, that of last evening comprised the following, which is a fair sample of all:

"National Melody Pot Pourri"....Heinecke.
Waltz—"Blue Danube"....Strauss.
Overture—"Crown Diamonds"....Auber.
"Grand Medley"....Conway's U. S. Cornet.
Comic Fantasia—"Hot Codlins"....Beyer
Waltz—"Exposition"....Hartman.
Grand March—"Knights Templar"....Hobbs.
Gallop—"Jolly Brothers"....Faust.

SEATS.

A number of settees will be placed through the building to accommodate those who are tired of walking about the miles of floor and gallery. These, when put up in position, will be a great acquisition.

PREMIUMS TO BE AWARDED.

This afternoon, at two o'clock, there will be a competitive display of cut flowers for a premium, which will be awarded at that time.

VISITORS.

Yesterday's visitors included Messrs. Jas. Battell, Chief of the Detroit Fire Department, and Matt. Brennan, Chief of the Chicago Fire Department. These gentlemen are *en route* home from the Firemen's Convention in New York. They were particularly struck with the complete arrangements made for protection against the fire fiend. What with the steamer on South avenue, the water and hose in the building, and what, it is acknowledged, would be more effective than either, Dr. Connelly's fire annihilator, the "fiend" stands no chance whatever.

ART.

Some specimens of silver ore mined in Mexico were brought to the building yesterday morning.

A large reflector has been placed over the fountain.

Yesterday a letter was received announcing that a car load of pictures was en route from Chicago to the Exposition. This car load is valued at $70,000, and its contents will have a room to themselves. Among them are the works of Bierstadt and Cropsey.

FRESH ATTRACTIONS.

The exhibitors, as has been said, have been busy the last two days, and the result of their work is seen in a very general improvement in the appearance of the booths and stands. Some of these are especially fine. Among these we note the floral display made by

B. A. ELLIOTT & CO.,

the well known nursery men, seedsmen and florists of No. 14 Market street. They have a large space in the southeastern corner of the floral department, which they have fitted up in an elegant manner. They have two platforms with an aisle between; over all are archings of evergreen. The evergreen is arranged in graceful festoons which gives a charming effect to the stand. Underneath on the platforms, there is arranged samples of all the flowers, trees, &c., supplied by the firm. In the display is to be seen common and fancy flower pots, vases, &c., for growing bulbs and other indoor plants. Rustic baskets, rustic stands, rustic chairs, lawn vases, wire hanging baskets, terra cotta hanging baskets, bird cages new and beautiful styles, canary birds, aquariums, fern cases, fish globes, French immortelles, aquarium ornaments, dyed moss, &c., boquets, wreaths, crosses, baskets of flowers and other floral designs. In addition to these there are several specimens of small trees, plants, flowering shrubs and vines. The quality of these trees and plants is A No. 1, and can be furnished of any desired age and size. The trees are grown on the Perrysville Plank Road, in Delaware County, within a half miles of their seed store and office. The display is a very complete one, and though there is so much of it, yet it is arranged with an elegance of design and with such regard to harmony of color, that the effect is perfect. The whole display is a very rich one.

SINGER SEWING MACHINE.

Another very attractive feature for the ladies is the sewing machine department on the north balcony. Here the Singer Sewing Machine Company display a number of their famous machines. They have them in the various styles in which they are manufactured, from the plainest to the most elegantly carved and panelled styles. The outer covering, however,—though so attractive—is but a small matter in comparison with the machine itself—the running gear. The Singer is a light running, noiseless machine, not complicated in mechanism and very easily managed. It makes the finest or the heaviest sewing with equal facility, and makes a stout, regular, beautiful stitch. The proof of the pudding is in the eating, and the proof of the excellence of this machine is seen while it is operated. Visitors can have an ocular demonstration of its superiority by sewing it in operation, and noting the sewing, which is done before their eyes.

BRADLEY'S WOOLEN MILLS.

The display made by Messrs. S. Bradley & Sons, of the Allegheny Woolen Mills, is a suggestive of comfort this weather. They exhibit a number of fine specimens of the productions of their mills, such as jeans, woolen goods, blankets and flannels. The latter are of different patterns, made only by this mill, in which the colors are very country. It is a steadily, safe and cheap method of lighting a house, and its advantages are fully attested in the brilliant, yet soft light which it gives. The apparatus speaks for itself. This corner is made one of the most brilliantly illuminated of any in the building.

MITCHELL, STEVENSON & CO.

Mitchell, Stevenson & Co., of No. 194 Liberty street, have among their specialties several fine specimens of the Revolution Base Burning Soft Coal Stoves, of the "beauty" in its proportions, and is admirably adapted for the burning of soft coal. It can be "fed" with as much regularity as an anthracite stove, and gives out as strong a heat with a less consumption of fuel. It is a highly ornamental, and just the thing for an office parlor, or sitting-room. This firm also exhibit some of their open fire place stoves, where one has all the advantages of cleanliness afforded by a stove, and all the attractiveness of an open grate. These are very pretty. Then there are cook stoves of all sizes, from the mammoth one a hotel could be prepared, to the smallest size for a cottage. It is an interesting exhibition.

DUFF'S COLLEGE.

In the corner, off from the Art Gallery, we find some specimens of the chirographic skill of Mr. W. H. Duff, of Duff's Commercial College, Fifth avenue. There are handsome specimens of pen drawing, together with a varied selection of cards, written to show the different styles of penmanship. There is to be seen the plain, the ornamental, the rapid business hand, the lady's hand, and every style belonging to the chirographic art. All the work has been done with the pen, and shows that Mr. Duff has lost none of the skill which has given him such a wide fame.

L. H. SMITH & CO.

Messrs. L. H. Smith & Co., of No. 49 Sixth street, have a space on the balcony, south side. They have filled it up with specimens of the manufactures which they supplied with gas from the machine, which occupies a space of about five feet. The Coleman gas apparatus has now been before public for several years, and in that time *hundreds* of them have been sold and are now being used successfully in public buildings, hotels, churches, factories and private residences in all parts of the country. It is a steadily safe and cheap method of lighting a house, and its advantages are fully attested in the brilliant, yet soft light which it gives. The apparatus speaks for itself. This corner is made one of the most brilliantly illuminated of any in the building.
